A Message from the President

Thank you for your ongoing patronage of, and goodwill toward, North Pacific Bank.

In fiscal year 2018, the Japanese economy continued to expand at a moderate rate, helped by the recovery in personal consumption driven by a steady improvement in employment and household incomes, along with a rise in corporate capital investment as corporate earnings remained strong. The Hokkaido economy was temporarily affected by the Hokkaido Eastern Iburi Earthquake, but recovered to show modest growth overall as tourism, the sector that was worst affected by this, also recovered with overseas and domestic visitor numbers exceeding the previous year.

On the financial front, long- and short-term yields remain depressed under the extended negative interest rate policy of the Bank of Japan. As the digitization of our society continues to accelerate, the financial services business is at a major turning point in its evolution.

In this management environment, we remain committed to our "Customer First" principle in accordance with our medium-term business plan *Creating Shared Value*, and have focused on the following business initiatives.

In our asset formation and asset management support services, we have worked to develop our customer-oriented consulting operations, tailored to take account of our customers' needs at every stage of their life. Also, in addition to expanding the Hokuyo Insurance Plaza service, which is available even on bank holidays, we have enhanced our product lineup by incorporating North Pacific Securities (formerly Jyoko Securities) into the Group. As part of our digitization initiatives, we launched new smartphone-based services, including real-time updates on account balances and transactions, including deposits and withdrawals, along with cashless payment based on QR codes.

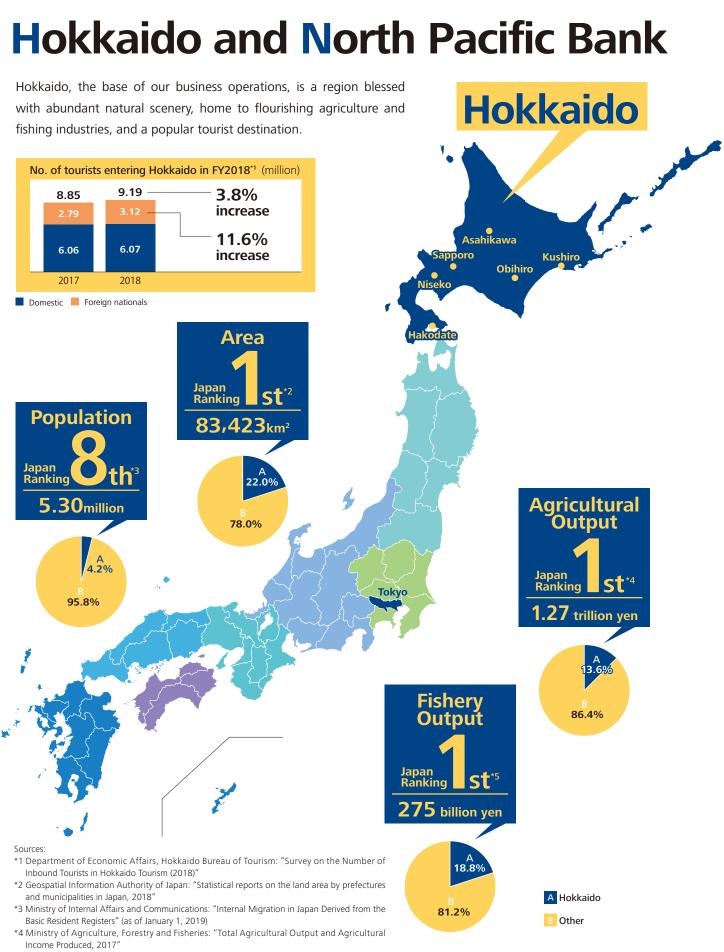

For our corporate clients, starting with our business evaluations and supplemented by financial support through loans and other measures, we strive to provide optimal solutions to help customers leverage their business strengths to maximum effect and solve business problems. As part of these efforts, in our fund activities, we have established the Hokuyo SDGs Promotion Fund, supporting Hokkaido-based companies engaged in activities that contribute to the sustainable development of Hokkaido. In addition, we also support companies whose business activities are contributing to the recovery from the earthquake and to the vitality of Hokkaido itself. Through these efforts, we aim to help reinvigorate the regional economy.

Together with the region and the Bank's customers we will work to create further growth and develop new value, meeting the diversifying needs of our customers and the challenges of the future through the provision of customer-oriented financial services. We remain continually grateful for your ongoing support.

September 2019

M. Yasuda

North Pacific Bank Mitsuharu Yasuda, President

*5 Ministry of Agriculture, Forestry and Fisheries: "Total Fishery Output, 2017"

Gains (losses) on securities	0.4	2.0	1.5	
Net other non-recurring income (loss) (including gains (losses) on money held in trus	t) 2.4	2.3	(0.1)	
Ordinary profit	16.0	19.2	3.2	
Net income	14.3	13.6	(0.7)	
ROE	3.56%	3.32%	(0.24%)	

Net income for the current fiscal year

ROE = (Total net assets at beginning of fiscal year* + Total net assets at end of fiscal year*) / 2 *Excluding share acquisition rights

Core gross profit decreased 3.3 billion year-on-year due to a decrease in net interest income brought about mainly by reduced interest on loans and discounts due to declining interest rates, and a decrease in interest and dividends on securities. Core operating profit decrease stopped at 0.4 billion yen year-on-year due to the effects of reduced expenses, predominantly for equipment. Ordinary profit increased 3.2 billion yen year-on-year due to a decline in credit cost and other factors. Net income decreased 0.7 billion yen year-on-year, reflecting a reactionary drop from a gain on extraordinary reductions in corporation tax in the prior year.

Consolidated (¥ billi				
	Year ende	Increase/

core operating profit	16.0	17.0	(0.1)	

• Deposits and Deposit Assets (Non-Consolidated)

The average balance of deposits and NCDs increased 240 billion yen (up 2.9%) year-on-year.

The outstanding balance rose 251 billion yen (up 2.9%) year-on-year. Average balances by sector increased over the previous year both for corporations and individuals. Deposit assets decreased 40 billion yen year-on-year mainly as safe custody of public bonds decreased due to the continuing low level of market interest rates.

Medium-Term Business Plan Creating Shared Value

Heralding another century of shared value together with the region and our customers

Three-Year Plan Period from April 2017 until March 2020

Mid-to-Long-Range Vision

We will create new standards and values for Hokkaido

We will be number one for customer satisfaction, community contribution, and employee satisfaction among local banks.

Our Fundamental Policy and Five Fundamental Strategies

Our Fundamental Policy - We will consistently and without exception apply our "Customer First" principle and create shared value together with our customers.

Our Five Fundamental Strategies

Identify customers' latent needs and provide optimal services Through our marketing efforts we will identify customers' latent needs and in a timely manner provide optimal services through best-suited channels.

Proactively strengthen business evaluations and support regional revitalization
We will realize shared growth for our customers and Hokkaido by reinforcing our functions as a financial intermediary through the provision of business evaluations and by helping customers resolve their business issues.

Strategies to support the provision of services

3 Reform toward robust organization structures with high productivity generating steady earnings

We will implement organizational reform as the backbone for the provision of high-quality services.

4 Train and activate human resources in conformity with customers' diversifying needs

We will review our personnel systems and training frameworks in order to raise human resources capable of meeting the diversifying needs of our customers. 5 Strategic action to accommodate FinTech

We will take assertive action in cooperation with the TSUBASA Alliance^{*} and other business formats.

Creation of sustainable business models

*A body incepted for wide area collaboration between local banks comprising Chiba Bank, Daishi Bank, Chugoku Bank, Iyo Bank, Toho Bank, Hokuetsu Bank, Musashino Bank, Shiga Bank, and North Pacific Bank.

At North Pacific Bank, we have identified a number of growth areas on which to focus our efforts in order to promote sustained growth of Hokkaido's economy. These include the fields of food and farming, healthcare and social welfare, and tourism. We are proactively providing support for M&A and business succession—a field where the need for support has recently been mounting as business owners grow older—manufacturing support to promote the secondary industrial sector in Hokkaido, and overseas development support for assistance in overseas expansion. To aid in these efforts, we have set up headquarters' contacts in each field to share information with sales branches, and are cooperating with outside experts, external bodies, local public bodies, and other financial institutions.

Support for Business Creation and New Business Initiatives

To invigorate the regional economy, business startups and advances into new business fields by the region's SMEs are indispensable. In light of this situation, the Bank has been actively providing support for venture

Hokuyo Innovation Fund

This fund was established to support growth enterprises within Hokkaido in the founding and development of new enterprises, new business lines, and innovation. Since its establishment in April 2012, it has contributed 699 million yen to 39 businesses.

• Support for the Tourism Sector

Tourism is the driving force behind Hokkaido's economy, and an area that gives us a strong competitive edge both domestically and overseas. In FY2018, 9.19 million* people (of which 3.12 million* were foreign nationals) visited Hokkaido. This tourism is acting as a new stimulus for economic growth, energizing the regional economy and creating job opportunities, and is creation and new business development through the use of various funds and the promotion of collaboration between industry, universities, government, and financial institutions.

Hokuyo SDGs Promotion Fund

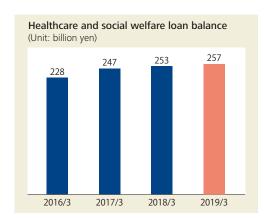

This fund is intended to help revitalize the local economy, and contribute to Hokkaido's sustainable development, through funding SMEs in Hokkaido that comply with SDG concepts. Since its establishment in June 2018, it has distributed 179 million yen to 13 businesses (as of May 2019).

expected to have significant economic multiplier effects on various industries. The Bank is continuing to provide support in cooperation with tourism-related institutions and associations.

*Department of Economic Affairs, Hokkaido Bureau of Tourism: "Survey on the Number of Inbound Tourists in Hokkaido Tourism (2018)"

Support for the Healthcare and Social Welfare Sector -

Hokkaido is at an advanced stage with regards to declining birthrates and aging populations, and its population is in decline as a result. In line with the progress of system reforms in response to this aging society, customer needs—such as the frictionless supply of funds for facility investment, the formulation of business strategies, and organizational reform—are diversifying. Moreover, the Bank has deployed a total of twenty healthcare business specialists to its head office and sales branches to strengthen customer support services.

• Support for the Food and Farming Sector

Hokkaido is the largest prefecture in Japan and boasts a total area of 83,423 km², while its output of agricultural produce is currently number one at 1.27 trillion yen.* Food production and agriculture are principal industries of Hokkaido and further growth is expected. Through the provision of optimal consulting, the Bank works to promote and strengthen all phases of food business operations in Hokkaido—production, processing, and marketing.

*From Ministry of Agriculture, Forestry and Fisheries: "Total Agricultural Output and Agricultural Income Produced, 2017"

Phase	Support	Solution	
Production	Financial support through various funds, etc.	Hokuyo Agricultural Support Fund	Hokuyo
Processing	Support to increase product appeal, etc.	Food product design	Senary Industry
Marketing	Support to expand sales through various business meetings, etc.	Information bazaars	Support Fund

Hokuyo Agricultural Support Fund

This fund allows direct funding to agribusinesses. It has already contributed 124 million yen across seven investments.

Hokuyo Senary Industry Support Fund

This fund supports so-called sixth sector industrialization, which creates more value-added goods and services by connecting agricultural, forestry and fisheries workers with second and third sector industries. It has already contributed 558 million yen across six investments.

Information Bazaar

This trade fair is aimed at opening up sales routes and expanding the market for Hokkaido-made foodstuffs in the metropolitan area. The Information Bazaar in Tokyo 2018, held in September, saw displays from 238 companies and organizations, with about 3,600 visitors attending, resulting in over 5,000 negotiations held.

Support for the Manufacturing Sector

Compared with other regions, Hokkaido gives less weight to the manufacturing industry. We believe it is paramount to provide continuous support to manufacturing corporations through methods that are not restrained by conventional frameworks. Therefore, the Bank is working to identify and mentor businesses

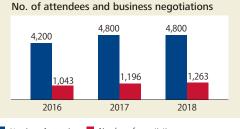

Manufacturing Technology Fair

Aiming to promote Hokkaido's manufacturing industry, this fair brings together SMEs, universities, support organizations, and others with exceptional technologies and products. The Manufacturing Technology Fair 2018, held in July, boasted the highest figures yet, with 238 companies and organizations exhibiting, approximately 4,800 people in attendance, and more than 1,200 negotiations taking place.

Information Bazaar in Tokyo 2018

that show distinct promise through such means as helping them expand their sales channels through business matching, or other measures such as establishing new funds or collaborating with external institutions.

Number of attendees Number of negotiations

M&A / Business Succession Support

In Hokkaido, the rate of business without a successor is the highest in Japan at 70%. To address this, the Bank has put employees with specialist knowledge in place at our headquarters, and through these and cooperation

Initiatives for Improved Business Evaluation

North Pacific Bank actively works toward better business evaluation to assess a business's growth potential and sustainability, by grasping and analyzing the strengths and weaknesses of a business's particulars, goods (technology/services) handled,

Overseas Business Development Support -

Overseas representative offices and partnerships with overseas financial institutions provide us with an international network spanning China, ASEAN member states, North America, and Russia. We utilize this reach to collect local information, undertake local feasibility studies, develop overseas sales channels, and support international trade transactions, allowing us to proactively support our customers with various overseas business activities. In FY2018, we provided support for 531 cases of business negotiations.

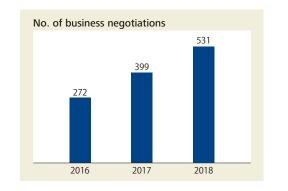

Cooperation with Overseas Sites and Financial Institutions

Following on from representative offices opened in Dalian and Shanghai in China in 2005, the Bank added its first ASEAN business site in January 2014 by establishing a representative office in Thailand's capital

Cooperative Arrangements for Business Matching

As a way of supporting companies in the region that seek to broaden their overseas sales channels, the Bank has entered into cooperative arrangements for business with external partners, we are able to offer comprehensive M&A and succession support that covers consultation services for customers right through to issue resolution.

business environment, and so on. Centered on our Business Evaluation Group, which is part of the Loan Administration Department, our sales branches coordinate with headquarters to share management issues with clients and offer various solutions.

of Bangkok. We currently have business partnerships with a total of 11 financial institutions—three banks in China, six in ASEAN, one in India, and one in Hawaii in the US.

matching with financial and other institutions overseas, as well as external consulting companies.

Main cooperative partners	Agreement concluded	Main services

establish overseas operations, the Bank provides support in raising the local-currency denominated financing required for such operations' future business expansion. In FY2018, the Bank issued seven standby letters of credit in the ASEAN region and the US. As a member of the regional community, the Bank regards CSR activities as important, and believes it is essential to manage our business in a way that takes into account the needs of our stakeholders. We have therefore formulated an ESG Approach Policy and a set of Principal SDG Themes in accordance with our Basic CSR Policy, and are engaged in a variety of activities for enhancement and sustainable growth of the community. We have also announced the North Pacific Bank SDG Declaration.

ESG: An abbreviation for Environment, Social and Governance, ESG sums up how the belief that initiatives to tackle environmental, social and governance problems are an indispensable part of a business' pursuit of sustainable growth is global.

SDGs: An abbreviation for Sustainable Development Goals, a series of goals adopted at a UN summit in 2015. The goals provide international targets towards making a sustainable world.

Our Basic CSR Policy

Based on the Sapporo Hokuyo Group's business principles, the group takes action for the ongoing benefit of our supporting stakeholders as we strive to offer the best financial instruments, services, and information, while carrying out support activities.

Current Situation of SDG initiatives

Creating Shared Value with Clients

On top of sharing management issues with clients through business evaluations, we work to resolve them by offering a variety of solutions that leverage external specialized agencies, as well as financial solutions through loans and our various funds, including the

Environmental Protection

North Pacific Bank is working to reduce its own environmental load, with bank-wide measures such as through energy reduction, while at the same time offering support for environmentally-oriented

Business-Based Environmental Activities

Through such activities as the provision of financial products and services, the Bank supports efforts on the part of customers to reduce their impact on the environment as well as R&D, commercialization, business development, and other eco-related business activities.

For individual customers, we offer financing at preferential interest rates for energy-saving renovation work, installation of solar panel systems, and other purposes.

Hokuyo SDGs Promotion Fund. Also, as members of the regional community, all our branches participate in local events as contributions to society, as well as hold cultural exchanges.

businesses and the environmental growth field through financial products and services, as well as making efforts to protect Hokkaido's biodiversity.

For corporate customers, in light of Hokkaido's nature as a veritable treasure trove for renewable energies, we handle a fund that supports growth fields from a capital-based perspective.

We also provide financing for enterprises investing in facilities aimed at reducing carbon dioxide emissions, and private-placement financing and other services at favorable rates for enterprises making efforts to preserve the environment.

Efforts to Protect Hokkaido's Biodiversity

• Hokku Fund

The Hokku Fund was established in 2010 to protect the diversity of wildlife in Hokkaido. In November 2017, we switched the grant system so that any organization could apply. We offer grants that support a wide range of activities to various organizations involved in the protection of rare species and the maintenance of natural habitats. To date, we have offered grants amounting to 60 million yen to a total of 87 organizations.

• Hokku Term Deposit

The main source for the Hokku Fund involves the Hokku Term Deposit, and is available at all branches. The Bank pays to the Hokku Fund an amount equivalent to 0.01% of the Hokku Term Deposit

Healthcare / Social Welfare –

North Pacific Bank is taking initiatives based on the current reality in Hokkaido, a region at the leading edge of the issue of decreasing birthrate and aging population, to ensure the medical and social welfare of

healthier, happier lives in mind and body, contributing to regional medicine, and helping grow relationships between industry and academia.

of support, including help in running the administrative office, public awareness campaigns, and financial support.

Prefectural medical course

Education / Culture –

North Pacific Bank is taking a variety of initiatives to grow a labor pool that can secure Hokkaido's future. These include promoting financial and economic education to raise general financial literacy and

Financial Education

As one part of these activities, we offer various types of financial education to students—from elementary through to university age—on the mechanisms of money, the roles that financial institutions play, and other finance-related topics. In FY2018, a total of 721 students from 51 schools were involved in our school

Culture Promotion

In FY2012 the Bank began hosting classical concerts performed by the Sapporo Symphony Orchestra to help promote culture in Hokkaido, and 28,000 customers have been invited to these concerts thus far. Additionally, the Bank has been supporting the Shiki Theatre Company's Children's Classroom for the

Sports Promotion

To better support parasports, North Pacific Bank deals in the private-placement funding Parasports Aid Bond. When these bonds are issued, North Pacific bank donates 0.2% of the issued value to athletes and organizations in parasports. In FY2018, this resulted in a donation of 6.94 million yen to 13 different parasports athletes and organizations. contribute to stable asset formation through proper savings and investment, as well as making efforts to boost art and culture in Hokkaido.

visits, lessons provided by our instructors, and visitation days held at our branches and offices. Moreover, in order to provide asset formation support to our customers, we hold seminars relating to savings and investing at our headquarters, certain branches, and at the Consulting Plaza.

Appreciation of the Arts and Kokoro no Gekijo, a project that invites children to theaters for free. We also offer our support to the Junior High School Student Writing Contest sponsored by Hokkaido Broadcasting Co., Ltd.

To increase the spread of sports, and promote wider participation in the region as part of a comprehensive partnership agreement with the prefecture, North Pacific Bank engages in various projects to support participation in sports by children of all abilities. The Bank holds sports classes, and provides assistance to organizations that promote sport for children with disabilities.

Diversity —

North Pacific Bank is engaged in various efforts to create an organization where all staff can flourish, including the promotion of a working environment

Career Support for Female Employees

We have established a Women's Support Office within the Personnel Department where female employees can consult on career advancement and life planning, as well as receive support during childcare leave. We are also making efforts to accelerate the promotion of where women can display their full potential while still balancing work and family life, as well as one where international employees can fully participate.

women to higher positions, and as of April 2019 there are 507 women (including 21 at branch manager level) in assistant manager or higher positions (meaning staff in leadership positions), with a total coverage of 26.7% of such positions.

Work-Life Balance Measures

In order to make North Pacific Bank a more rewarding workplace, we are taking active measures to improve work-life balance and support employees in having a healthy career and home life, including career track-based HR and workplace changes, child- and nursing-care career planning. These measures have been highly praised, and in December 2018, North Pacific Bank became the first financial institution in Hokkaido to be named an outstanding childcare support enterprise (Platinum Kurumin).

Platinum Kurumin logo

Staff Health Management

Creating a rewarding workplace where employees can work in health and safety is one of our core management principles, and we have enacted a variety of measures to improve long working hours, including an inter-work interval system, as well as a full range of stress checks. As a result, we have been recognized for the second year in a row under the Certified Health & Productivity Management Outstanding Organization Recognition Program (large enterprise category).

Corporate Governance

Basic Approach –

Inspired by the Bank's management principles and the management principles of the Sapporo Hokuyo Group as a whole, we at North Pacific Bank pursue sustainable growth and improved corporate value in the mid-to-long term. Our basic approach to achieving those goals is to earn and retain the trust of our shareholders, clients, workforce, local communities, and other stakeholders, and to maintain effective corporate governance.

Governance Organs —

The Bank has 12 directors (including three external directors) and five Audit & Supervisory Board Members (including three external auditors). Directors' tenures are capped at one year in order to enable the Bank to quickly adapt to changes in the operating environment, create flexible management structures, and allow the General Meeting of Shareholders to

Based on this fundamental approach, in order to ensure auditing independence, we have adopted an Audit & Supervisory Board, which is kept separate from the Board of Directors. Within this framework, we have furthermore sought to ensure more effective corporate governance by voluntarily establishing a Nomination and Remuneration Management Advisory Committee, more than half of which is composed of independent external directors and auditors.

assess director performance annually.

We have group management meetings to coordinate and fine-tune strategies and policies aimed at furthering operations, and an Executive Committee, attended by standing directors, to deliberate and vote on important operational and administrative matters.

and considers the supervisory role provided by the

external board members to be functioning effectively.

All external appointees satisfy the Bank's criteria for

independence, and are consequently registered with

the Tokyo Stock Exchange and Sapporo Securities

Exchange as independent corporate officers.

External Directors and External Audit & Supervisory Board Members –

To enhance management transparency, the Bank elects three external directors. In coordination with the Audit & Supervisory Board, including external board members, these external directors monitor the performance of duties by the directors. The company elects three external Audit & Supervisory Board Members, of which one is made a standing auditor,

Protecting Shareholders' Rights and Ensuring Impartiality –

We endeavor to effectively protect shareholders' rights and ensure impartiality through a range of initiatives. These include due consideration to the full range of interests, including those of minority shareholders and foreign shareholders; as well as making it easier for shareholders to participate and vote, for instance through early delivery of meeting notices, and choosing the most appropriate days for the General

Working in Partnership with Stakeholders

We respect the various rights and circumstances of our stakeholders, as well as the upholding of sound business ethics, and we strive to earn and maintain the trust of all stakeholders through working together with them in whatever capacity is most appropriate. In keeping with our role as a regional bank to contribute to Hokkaido's economic development, we Meeting of Shareholders.

Moreover, we strive to ensure that all shareholders and investors get equal access to information by holding information meetings and, for the benefit of non-institutional investors, uploading materials distributed at meetings to the Bank's website on the same day (in principle).

pursue a community-oriented brand of banking, working aggressively to bring about regional revitalization and provide services to meet the needs of our clients specific to the different stages of their lives. In addition, as an involved member of the community, we place the utmost importance on CSR, and have formulated an ESG Approach Policy and a set of five Principal SDG Themes under which we are deploying various measures: creating shared value with clients,

• Ensuring Disclosure and Transparency -

Our basic approach to information disclosure is set forth in our Disclosure Policy. The policy stipulates that we will disclose information in a timely and appropriate manner as required under law, and that the Disclosure Committee will oversee our activities in

Dialogue with Shareholders -

We recognize that constructive dialogue with shareholders is vital if we are to achieve sustainable growth and improve corporate value over the mid-to-long term. As such, we are working under our Policy for Constructive

• Internal Control System Maintenance -

The Bank's Board of Directors has voted to approve a basic internal control policy based on the Company Law and regulations for its enforcement. Our internal control framework incorporates the major focal points of management monitoring, i.e., risk management and compliance arrangements, as a means of ensuring such monitoring by the Board of Directors and the Audit & Supervisory Board is robust.

Ensuring the reliability of financial reporting is a vital

Internal Audit, Corporate Audit, and Accounting Audit

Internal audits

The Bank has established an internal Audit and Inspection Department, governed directly by the Board of Directors and positioned independently of the departments subject to audit. Based on audit policies and audit plans established by the Board of Directors, the Audit and Inspection Department conducts audits of the head office, sales branches, and subsidiaries. In principle, the results of these efforts are presented monthly at audit report meetings, and are conveyed to the Board of Directors and auditors.

Corporate audits

The Bank's standing Audit & Supervisory Board Members validate internal control frameworks through their operations audits, which include visiting audits at the Bank's branches and subsidiaries as well as viewings and inspections of important documents. Moreover, by attending the Board of Directors' meetings, auditors audit the legal compliance and appropriateness of directors' execution of duties. As a dedicated support function to the Audit & Supervisory environmental protection, healthcare/social welfare, education/culture, and diversity.

this area.

Moreover, disclosure is not limited to financials: our business principles, medium-term business plan, and other nonfinancial information can also be found on the Bank's website.

Dialogue with Shareholders and Investors (as described in the Corporate Governance Report) set by the Board of Directors to establish a framework for communications and bolster our investor relations activities.

aspect of the Bank's management and, to this end, we endeavor to meet the strict requirements of our Internal Control Reporting Regime, which is based on the Financial Instruments and Exchange Law, through its Basic Policies and Internal Control Administration Regulations Regarding Internal Controls on Financial Reporting, as well as Internal Controls on the Group's Financial Reporting.

Board, an Audit & Supervisory Board Members' Office has been established with a knowledgeable fulltime general manager capable of audit task verification.

Accounting audits

North Pacific Bank has appointed KPMG AZSA LLC as its accounting auditor.

Cooperation and teamwork

In order to ensure audit effectiveness, Audit & Supervisory Board Members hold regular meetings with the president to exchange opinions and meetings approximately once every two months with the Bank's accounting auditors to exchange information and opinions.

Furthermore, the company's standing Audit & Supervisory Board Members hold regular meetings with the Audit and Inspection Department to exchange information and opinions, and attend audit report meetings and meetings of the Disclosure Committee, Compliance Committee, and Risk Management Committee to verify the company's internal control status.

Compliance Frameworks -

The Bank regards the compliance frameworks of the Bank and its group companies as an important component of management. The Board of Directors coordinates the formulation of the structure, defining measures including compliance frameworks and basic policies for norms of action.

The Compliance Committee, with chairman and members appointed by the president, is supported by the Legal and Compliance Department. The Compliance Committee serves to distribute a Compliance Manual to all concerned, which explains about pertinent laws and provides specific instructions for compliance violation situations. The committee also formulates and reviews the Compliance Program,

Shutting Out Organized Crime

The Bank recognizes its public mission and responsibility to society and strives to maintain measures to ensure that it makes no transactions and has no contact whatsoever with organized crime. The Bank maintains its Basic Policies for Dealing with

In recognition of the importance of effective use and appropriate protection of information assets, the Bank has established Combined Security Policies and Security Standards whose status of observance is checked in a timely and appropriate manner. Publicly released Privacy Policies, the creation of frameworks for preventing information leaks, and frameworks for receiving and responding to requests for information disclosure are just some of the ways in which we strive to ensure the integrity of personal information.

To enhance customer convenience and protection, the Bank has established Customer Protection Management Policies and Solicitation Policies to provide customers with appropriate financial products, and strives to reinforce customer confidence by a detailed plan aimed at strengthening the compliance framework, and meets with and reports to the Board of Directors.

Compliance officers and staff are assigned in each headquarters department and sales branch. These individuals monitor the status of compliance and work to implement and promulgate compliance policies. To ensure early detection and correction of inappropriate actions and compliance-related problems, we have established an internal whistleblower system, with both internal and external (legal counsel) notification structures that can be utilized by everyone, including all group company employees, part-timers, and temporary staff.

Organized Crime, and a Provision for the Exclusion of Organized Crime covers our deposit, lending, and rental deposit box transactions. We also coordinate with law enforcement and legal counsel in undertaking to shut out organized crime.

Management Frameworks for Personal Information Protection and Customer Protection —

appropriately conducting its business operations. The Bank has also established Conflict of Interest Management Policies and Rules for the Prevention of Conflicts of Interest to protect customers' interests by keeping tight control of transactions that may

constitute a conflict of interest. Furthermore, North Pacific Bank formulated and announced Action Guidelines for the Realization of Stable Asset Formation and Asset Succession of Customers as part of the Bank's efforts surrounding the practice of fiduciary duty.

Under these action guidelines North Pacific Bank will continue to provide customers with optimized products, services, and information in a timely manner consistent with their life stages through its consulting function.

Preventing Money Laundering and Other Financial Crimes –

Vigilance against money laundering and the funneling of funds to terrorists is an increasingly vital issue that the international community must tackle together, and we at the North Pacific Bank consider it one of our core management tasks. As such, we have a range of effective measures in place.

In addition to performing legally required checks when transactions take place, we established our own Basic Policy on Countering Money Laundering and the Financing of Terrorism in November 2018, and launched a dedicated Financial Crime Prevention Office in January 2019 to oversee its implementation. We will continue to enhance our risk-based approach and robust management framework to maintain water-tight security.

• Credit Risk Management

preparedness.

Credit risk refers to the risk of a decline in asset value or loss of assets by the group due to a deterioration in an obligor's financial position or its ability to pay, and the risks that arise if large-lot loans are tilted toward or concentrated on specific industries or corporate groups. We manage individual loan transactions using

As well as developing a wide range of financial products tailored to the needs of our customers, the Bank takes managing future risks appropriately as a top priority. The Bank has established a Risk Management Committee to provide unified management of risks for each of the companies within the group. Its functions include accurately ascertaining major risk such as credit or market risks, as well as discussing risk management policy or reviewing our

appropriate methods in accordance with credit status. We also manage loan portfolios to avoid excessive exposure to specific borrowers and industries. By doing so, we are making efforts to appropriately manage credit risk.

management through measures such as by having our

Risk Management Committee and ALM Committee

identify the market risk quantum of the group's overall assets under management and implement frameworks

for appropriately checking and managing market risk.

Market Risk Management –

Market risk relates to the risk of loss from value declines in asset holdings caused by changes in interest rates, prices of securities, and foreign exchange rates, among others.

The Bank is working to provide appropriate market risk

Liquidity Risk Management

Liquidity risks involve two kinds of risk. One is cash flow risks, which refers to difficulties in securing the necessary amount of funds or losses incurred in having to raise funds at interest rates significantly higher than normal as a result of unexpected cash outflows. The other is market liquidity risks, which refers to the inability to trade on markets or having to trade at prices considerably less favorable than normal as a result of market confusion and other factors.

Cash flow managers keep close tabs on daily and monthly cash flow trends and work to control cash flow risks, while liquidity risk managers monitor closely to check for cash flow or liquidity risks. In this way, the Bank is making active efforts to appropriately manage liquidity risks.

Operational Risk Management -

Operational risk refers to the risk that an operational process, or an act by a corporate officer or employee, or a system, is inappropriate, or the risk of loss due to external circumstances.

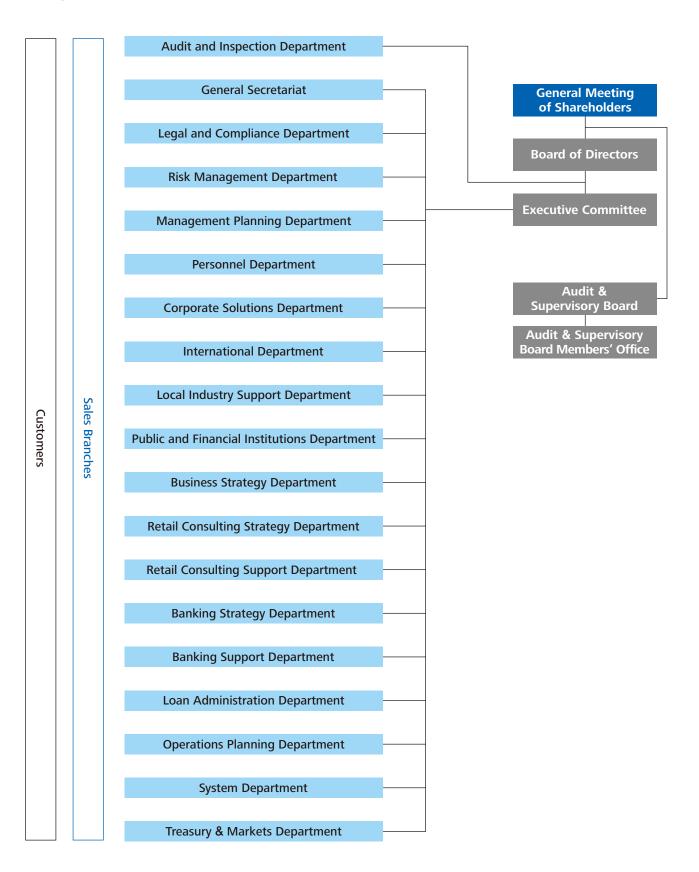

Overall controlling units for operational risk management have been set up at each group company, with individual

Maintenance of Business Continuity Planning (BCP) -

As a regional financial institution, the company has the responsibility in case of an unforeseeable event such as natural disaster to minimize the impact and to continue or quickly resume operations. The group has established Crisis Management Regulations and other rules, and maintains frameworks for the coordinated crisis response of group companies.

risk management departments engaging in respective risk management at expert level in order to prevent operational risks before they materialize and to minimize the impact in case they do. This framework ensures appropriate management of operational risks.

As part of our business continuity plan the Bank has created a manual that takes into account the damage that would result from various disasters (store damage, system failure, etc.). Training sessions are also held at regular intervals. Organizational Chart (As of June 26, 2019)
